REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The closest prior art of record is USPN 3,956,558 to Blanco et al. Blanco teaches a decal for coating ceramic/glass articles. The ceramic/glass article has a vitreous surface (glaze layer) comprising paper backing sheet with a water-soluble gum/adhesive layer adhered to a design/pigment layer (coloring material) comprising metal oxides and inorganic pigment (glass flux) in the form of a pattern printed, an intermediate protective glass layer over the design layer and adhered to the ceramic glazed ware (glazing layer on a ceramic substrate). Blanco does not teach a raised coloring material comprising inorganic pigment and glass flux. Thus the invention is allowable on this basis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
